RADIO 3 SCIENZA (Ora: 11:55:39 Min: 3:37)

Domani al Museo di Storia Naturale di Milano la presentazione del progetto Digital Diorama: se ne parla con la responsabile scientifica "Digital Diorama" Annastella Gambini.

NUOVE TECNOLOGIE

Con il tablet la natura «da museo» prende vita

Elena Gaiardoni

■ Grazie alle nuove tecnologie i diorami sulla natura prenderanno vita, dando a tutti noi l'emozione di conoscere più da vicino le meraviglie del pianeta in cui respiriamo. Si chiama «Digital Diorama» il progetto finanziato dal ministero dell'Istruzione, realizzato dall'Università **Milano-Bicocca** con il Politecnico, l'università di Roma Tor Vergata, il Parco Nord di Milano e l'istituto comprensivo Copernico di Corsico. I diorami interessati da questa trasformazione sono quattro, tra cui uno del museo di Storia naturale di Milano.

Collegato ai nostri computer o tablet con un particolare sistema, basterà un tocco sullo schermo per vedere il paesaggio, che in realtà è un plastico in tridimensione, muoversi. È una nuova frontiera per lo studio della biologia nelle scuole o per la fruizione di spettacoli sulla natura in particolare postazioni multimediali aperte al pubblico. Il paesaggio della savana con animali e piante dentro un museo si muoverà offrendoci uno spettacolo di natura didattica. È il primo passo per arrivare a creare un database internazionale in grado di aprire sui nostri schermi in futuro tutti gli habitat naturali che si trovano nei musei della terra.

GLI EVENTI

Guarda tutte le fotogallery degli eventi su www.ilgiorno.it

DUETTO Con lui Virginia Reniero, inviata di 7 Gold

STORIA E TV L'ARCHEOLOGO, AL RITORNO DALL'ISOLA DEI FAMOSI, GIRA UNO SPECIALE Il viaggio fra mummie e faraoni del «naufrago» Malnati

ARISTIDE MALNATI, naufrago dell'Isola dei famosi, al suo rientro è tornato subito all'archeologia con Virginia Reniero, inviata di 7 Gold. Per lui un'immersione nella collezione egizia al Castello Sforzesco per iniziare a girare uno "speciale" che illustrerà le collezioni egizie nel capoluogo lombardo: oltre a quella del Castello anche i reperti conservati all'Università Statale di Milano. Tra frammenti del Libro dei Morti (una specie di Bibbia nella quale gli antichi egizi celebravano le loro divinità), sarcofagi del Nuovo Regno (più o meno la seconda metà del secondo millennio A.C.) e del Periodo tardo dei faraoni (900-750 A.C.) e mummie, Malnati e Reniero faranno sveleranno tutti i segreti di una delle civiltà più affascinanti della storia umana.

SCHERMO Malnati dall'Isola alle collezioni del Castello Sforzesco

▲ Marinella Di Capua all'inaugurazione dell'atelier Prandini

Marinella Di Capua con tanto charme indossa un capo spalla colorato dello stilista Prandini in occasione dell'inaugurazione dell'atelier: nella foto, Di Capua con Carlo Candito collaboratore di Prandini

▲ Cittadini in piazza per riprendersi gli spazi pubblici

Cittadini in piazza per fare colazione e riprendersi gli spazi pubblici di socializzazione. L'evento è stato promosso fra via Padova e dintorni dal NoLo (Nord Loreto) Social District

▲ La Cattolica festeggia i primi 50 anni dell'ex Istituto superiore di educazione fisica

Benedetta la prima pietra dall'allora arcivescovo, Giovanni Battista Montini, nel 1958, sei anni dopo nacque il Centro sportivo Rino «Fenaroli» che vide l'avvio dei corsi dell'Istituto Superiore di Educazione Fisica (Isef) dell'Università Cattolica, il primo in Lombardia. Le attività furono ufficializzate nel 1966 e l'ateneo di largo Gemelli ha celebrato i 50 anni con il convegno «Le scienze motorie nella formazione della persona» in aula Pio XI. In viale Suzzani si sono diplomati in 4.291 e laureati in Scienze motorie in 3.031. Sopra, al Fenaroli, da sinistra tre grandi dell'atletica come Ennio Preatoni, Sandro Calvesi ed Eddy Ottoz. A sinistra, giovani studentesse

▲ Dama special time, il nuovo aperitivo del mercoledì al Boscolo

“Dama special time”, aperitivo ogni mercoledì dal pr Curcio e Francesca Lovatelli Caetani, sulla terrazza del Boscolo hotel di corso Matteotti, con vista guglie. Gli ingredienti? Vini, drink, appetizer, musica live e il design

▲ Tutti i segreti del latte svelati a Morimondo

Laboratori di fabbricazione di formaggio e gelato, passeggiate ecologiche, dimostrazioni, degustazioni di “oro bianco” e poi eccellenze enogastronomiche di Pavese, Lomellina e Oltrepò. Questo e tanto altro nella due giorni - oggi e domani - dedicata al latte a Morimondo, città slow e borgo del circuito “Borghi più belli d'Italia”, sede dell'omonima abbazia romanica alle porte di Milano. Così la cittadina anche quest'anno celebra La Festa del Latte

BICOCCA IL MUSEO DI STORIA NATURALE A PORTATA DI TOUCH
Digital Diorama, l'ecosistema in un clic

LA NATURA a portata di touch: grazie ai diorami digitali oggi è possibile conoscere in modo approfondito e «toccare con mano» anche gli ecosistemi geograficamente più lontani mediante computer, tablet, lavagne interattive (lim). Il progetto scientifico «Digital diorama» per la lim è stato lanciato dall'Università Bicocca, grazie a un finanziamento al ministero dell'Istruzione, come innovazione radicale nella divulgazione e nell'insegnamento della biologia e dell'ecologia: i diorami - ovvero le riproduzioni di un ambiente con animali, piante e altri elementi realizzati

con precisione scientifica, presenti nel museo di corso Venezia - sono stati digitalizzati e resi esportabili nelle scuole e in postazioni multimediali aperte al pubblico. «Vogliamo realizzare una didattica innovativa - ha spiegato Annastella Gambini (nella foto), docente di Biologia alla Bicocca - rendere disponibile a tutti la possibilità di esplorare, virtualmente, ecosistemi lontani e, infine, far conoscere i diorami dei musei di Storia Naturale». Musei, perché oltre ai diorami del milanese sono riprodotti anche quelli del Museo del Mediterraneo di Livorno.

Cernobyl 30 anni dopo
Sirena, maschere, tute
per non dimenticare

Flash mob in Duomo a 30 anni dal disastro di Cernobyl. Una sirena assordante e poi i manifestanti, in tuta bianca e mascherina, hanno liberato in cielo centinaia di palloncini bianchi e neri

Palloncini bianchi e neri per eroi e vittime
 La manifestazione è stata organizzata dalle associazioni Cernobyl Lombardia, Legambiente e Verso Est Onlus
 Palloncini in memoria di vittime ed eroi di Cernobyl
